

PUBLIC INFORMATION REPORT

WEST COLLEGE AVE. BRIDGE (YORK COUNTY BRIDGE 81) OVER CODORUS CREEK CITY OF YORK, YORK COUNTY, PENNSYLVANIA

April 11, 2021

PROJECT DESCRIPTION

This project involves the replacement of County Bridge #81 which carries West College Ave. over Codorus Creek in City of York, York County. As part of this project, an alternatives analysis study was performed whereby it was determined that full replacement of the bridge at existing grade to maintain the grade-separated crossing with the existing railway (similar to the existing structure) provides the most feasible and practical crossing of the Codorus Creek. The alternatives analysis study is complete and the Preliminary Engineering design phase of the project is now underway.

TRAFFIC CONTROL

A detour (approximately 1 mile) will be utilized while the new bridge is being constructed. This bridge is along a school bus route and public transit route.

PROJECT SCHEDULE OR CONSTRUCTION SCHEDULE

- Alternatives Study: Complete
- Preliminary Engineering: In Progress

FUNDING & COST

- Budget/Programming construction cost estimate: \$11,800,000

UPCOMING ACTIVITIES

- Scoping Field View
- Safety Review Submission
- Progress the Environmental Resources Evaluation
